

No strings attached !

"Markson Pianos have been wonderfully professional. Very helpful with advice, with a big range of pianos and a great knowledge of the instrument. Excellent service throughout" - Arsene Wenger (Arsenal FC Manager)

Yamaha DGT7 - PE

Length : 149cm (4' 11")
Width : 146cm (4' 9")
Height : 100cm (3' 3")
Weight : 189Kg (416lbs)

Disklavier GranTouch digital pianos represent an unprecedented integration of musical technologies - the control of a Yamaha grand piano keyboard, the sound of a Yamaha concert grand, the rich instrumental tones of Yamaha XG, and the recording/playback and other amazing features of the Yamaha Disklavier.

The first instruments of their kind, Yamaha GranTouch pianos set new standards of playability and performance by integrating authentic acoustic piano keyboards and action mechanisms into superb digital instruments. Yamaha Disklavier GranTouch pianos take this integration to a whole new level, by adding all the versatile features of the Yamaha Disklavier.

REAL GRAND PIANO KEYBOARD AND ACTION

- *The Yamaha grand piano keyboard and action offer a solid, natural touch and unsurpassed expressive control—far superior to that of most digital pianos.*
- *Optical key position and hammer speed sensors work together to instantly convert keystrokes into digital data, capturing the subtlest nuances with impeccable precision. Sensors operate on beams of light, so there is no mechanical interference with the touch or response of the keyboard.*
- *A full set of piano pedals—sustain, shift and sostenuto—give you the same control as you would have on a fine traditional grand.*
- *Pedal sensors complete the system, ensuring that every action of the pianist is faithfully reproduced.*

SUPERB CONCERT GRAND SOUND

- *Digital piano tones are stereo sampled throughout their full range of dynamics and tonal modulation from the Yamaha CFIIS concert grand piano.*
- *Piano tone generation uses 30 megabytes of memory far more powerful than standard digital pianos to reproduce the sound of a grand piano in lifelike detail.*
- *Disklavier GranTouch piano tones even recreate the harmonic resonance on other strings that results from incremental use of the sustain pedal.*
- *Controllable reverb effects simulate the acoustics of various playing environments.*
- *The powerful 60W-per-channel, three-way, six-speaker internal audio system delivers the sound in all its richness and depth.*

Keyboard	88 keys (7 1/4 octaves) Yamaha acoustic grand piano keyboard and action
Pedals	Sustain, shift and sostenuto
Sensor System	Optical key positionposition, hammer speed and pedal - position sensors (sostenuto pedal: on/off)
Drive System	Key-end solenoids
Piano Tone	Digital stereo sampling (CFIIS concert grand) 30 megabyte wave memory 32-note stereo polyphonic Sustain pedal resonance effects Reverb (3 modes w/depth control)
Ensemble Tone	Advanced Wave Memory 2 (AWM2) 32-note polyphonic 16 - part multitimbral XG/GM modes Normal voices: 676 total Drum voices: 21 kits total Tuneable ± 50 cents in 1 cent steps, in unison with piano tone
Data Storage	3.5" 2HD/2DD floppy disks 1 MB internal flash memory Standard MIDI File (format 0, format 1)/E - SEQ
Playback	L/R part select, song select, search, repeat, auto start, space play, volume (0 ~ 100) tempo (50% ~ +20%), transpose (± 24 notes), piano/ensemble balance, pedal count- in, keyboard/pedal cancel
Recording	16 tracks L/R (split or full keyboard) Quantize, re record Track edit
Metronome	Visual and/or audible (w/volume control) 30 ~ 400 bpm, 1/4 ~ 9/4 time
Utility Functions	Song copy, sort, delete, title, convert Disk format, copy, title, convert
Connectors	Headphones x 2 MIDI In, MIDI Out AUX In, AUX Out To Host (MIDI, PC1, PC2, Mac)
Amplification	Stereo (60W x 2)
Speakers	3-way, 6 speaker system (16 cm x 2, 10 cm x 2, 2.5 cm x 2)
Dimensions (L x W x H)	149 x 149 x 97 cm (58'66" x 4'11" x 38")
Weight	189 kg (416 lbs) including control unit
